NOLDE BROTHERS TO GET PERMIT

Ordinance Committee Recom-
mends Ordinance by Vote
of 8 to 1.

With only one of its members dissenting, the Committee on Ordinances voted last night to recommend to the Council an ordinance permitting Nolde Brothers to erect a stable on Twenty-sixth Street, between Broad and Marshall. This matter has been before the City Council since October 6, and after Abner Goode had voiced strenuous opposition to the ordinance on the part of his neighbors and three churches, and asked that further delay be granted, John Moore arose to say that the dilatory tactics had continued long enough, and urged that the matter be voted upon at once. The vote was 8 to 1.

Clyde H. Hatchett and W. P. Wade appeared before the committee to urge the passing of an ordinance to fix upon some colors for the city, following the custom of all colleges and some cities. The suggestion was referred to a subcommittee consisting of Messrs. Disney, Moore and Vonderhaar, which is to confer with the Mayor as to what colors should be selected.

In taking up the amendment to the ordinance requiring danger signals to be displayed at the entrances of garages, which would hinder automobile traffic, the committee heard L. M. Foster, who said that automobiles were taken in and out of garages more frequently as practically to afford no danger to pedestrians. The question was referred to a subcommittee consisting of Messrs. Gunst, Paul and Melton, Mr. Disney being in the chair.

It was recommended that the City Council elect an Auditor for the term beginning between January 1, and June 1, 1914, on the latter of which date the Auditor will be regularly elected under the new charter for the full term of two years. Auditor Warren's term expires on December 31, and there was no provision for filling the office up to July 1, when the powers of election, under the charter, comes, falls on the City Council. Acting Auditor Crenshaw explained the purpose of the proposed ordinance, and it was recommended for passage.

An ordinance prohibiting the erection and operation of slaughter-houses south of the northern boundary line of the city as it is at present drawn, and imposing a penalty of \$20 for violation, was referred to a subcommittee consisting of Messrs. Moore, Melton and Welsh.

Appendix Amendment.

(Special to The Times-Dispatch.) New York, December 18.—Banks of several Wall Street banks have made an appeal by telegraph to Senator Owen and Section 24 in his currency measure, as amended so that the New York Clearing House may continue to conduct examinations of its member institutions.

Under the construction placed by the bankers of Section 24 they believe that examinations by the Clearing House Association would not be permissible unless approved by the government board, examinations being limited to government officers.

Local bankers are also desirous that the Owen bill be modified so that a member bank may do business with an institution that is a nonmember.

DECISION AGAINST UNITED HATTERS

New York, December 18.—The United States Court of Appeals to-day decided the famous Danbury Hatters case in favor of D. E. Lowe, the plaintiff, against the United Hatters of North America. The court affirmed a judgment in favor of Mr. Lowe and against the hatters organization for \$45,000.

The court held that the organization had violated the antitrust laws by conspiring to restrain trade in the manufacture and sale of hats.

Judge Appoints Constable.

(Special to The Times-Dispatch.) Lynchburg, Va., December 18.—E. O. Horan to-day was appointed high constable by Judge Christian for the remainder of his present term and for the four years following. He succeeds H. B. Goode, who died two weeks ago. Mr. Horan ran second in the primary last spring for the constable nomination.

Judge Appoints Constable.

(Special to The Times-Dispatch.) Atlanta, Ga., December 18.—John Wesley Long, of Greensboro, N. C., was elected president of the Southern Surgical and Gynecological Association at the closing session here today of the organization's annual meeting. Asheville, N. C., was selected as next year's meeting place.

Subcommittee to Consider Road Laws.

Mr. Coleman asked for \$27,500 for maintenance of office and engineering forces, and general cost of supervision.

On account of the vital importance of road matters, Senator Lessner moved that the chair appoint a subcommittee to confer with Mr. Coleman, and consider his recommendations and report proper bills for comprehensive road development, which was adopted.

Giles B. Jackson and delegation of colored men asked for a State appropriation of \$25,000 for a negro historical and industrial exposition. They argued that the colored race now pays State taxes on a valuation of \$55,745,500, and yet had never asked for any special appropriation for that race at the hands of the State Legislature, which was adopted.

The Medical College.

L. Z. Morris, chairman of the executive committee of the board of visitors presented the budget of the Medical College of Virginia, asking for a maintenance fund for each year of \$23,625, and for a State allowance of \$15,000 a year to the Memorial Hospital for its support as a free hospital for the indigent sick of the Commonwealth, on similar lines as the hospital at the University of Virginia, now supported by State appropriation. Mr. Morris reported 538 enrolled students, more than the total enrollment of the two medical colleges here at any time prior to their consolidation. Of these, 330 are from Virginia. The college reported property assets of \$151,618.61, and liabilities of \$171,468.61.

Dr. George B. Johnson spoke of the consolidation of the colleges here, and of the great success which had followed that movement. Men afflicted with curable diseases were as much wards of the State as those inflicted with insanity, he said, in defense of the item for State support of the Memorial Hospital. That property, he said, had been absolutely deeded to the medical college, an out-and-out State institution.

Hope to Unite.

"Our hope and desire," he continued, "is that the two remaining medical schools in Virginia shall unite. We have paved the way for that by getting the local schools together and uniting title to the Memorial Hospital. Negotiations are on with the University of Virginia for a merger, the terms of which would be that there would be a full four-year course in medicine in Richmond, and that the combined institution would be absolutely a part of, and under the control of, the University of Virginia. If that plan is consummated the appropriations we ask should be made in the name of the board of the University of Virginia for the purposes indicated."

A great thing has been accomplished in uniting all strife and controversy between the colleges in Richmond," said Emma Hanan, Jr. "The combined faculty is a small lot of harmonies. The Memorial Hospital once privately owned, has been legally conveyed to this State institution. There is now before the City Council, and will probably pass in a few weeks, a plan by which the city will take over the Memorial Hospital for the care of indigent city patients. We ask the State to aid in the care of the indigent sick of the State."

The Laurel Reformatory.

Charles Huizler presented the needs of the Laurel Reformatory in such glowing terms that the committee voted to take the entire afternoon in a trip to that institution for a close inspection of its work. Mr. Huizler reported that the cost per day had been \$6 cents per boy, whereas the State had only charged 25 cents per boy. He asked a State allowance of 50 cents per day to aid in the care of the indigent sick of the State.
